

2010 Mayor's Environment Expo

Step Up to Green, Step Into your Community

June 1 – 3

Municipal Building Atrium

40,000 kids and growing. 60 exhibits on eco-action in Calgary.

The Mayor's Environment Expo is about educating Calgary's youth in environmental stewardship. The City of Calgary, local businesses and Calgary schools come together to celebrate environmental action in our community through interactive booths and workshops.

Teachers must register in advance. Registration is available at calgary.ca/expo.

Celebrating showcase school initiatives

Fourteen Calgary schools are taking their learning to the next level through the showcase school program. They've committed to actions that empower their schools to protect our precious land, air and water.

Find out what the schools in your area are doing and watch their progress at calgaryherald.com/mayor-environment-expo!

Northeast schools:

- Chief Justice Milvain, grades 5-6
- Langevin Science, grades 1-2

Adults-only presentation

This year's adults-only presentation topic is the Drake Landing Solar Community in Okotoks. The first of its kind in North America, Drake Landing is heated by solar energy that's stored underground in the summer and distributed to each home during the winter.

Please join Dawn Heffernan and Rick Quail from the Town of Okotoks at the Glenbow Museum on June 2.
