

Airport Trail Update – 2008 March

On March 18, 2008, I hosted a Stakeholder Group meeting to discuss the implications for area businesses, communities and individuals should construction of the new airport runway proceed without an east-west tunnel connecting Airport Trail (96th Avenue NE). The meeting was well attended by representatives from Community Association Boards, Developers, Business Associations. Art Hanger, MP for Calgary Northeast and Devinder Shory, Federal Conservative Candidate Elect for Calgary Northeast attended as did Ward 10 Alderman Andre Chabot. My intent at this meeting was to ensure that the Stakeholders are aware of the current situation and to get feedback as to what the impacts might be and how best to proceed. I am hoping to meet jointly with the three levels of government in the not too distant future and update the website with any news.
